Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 54 is rejected under 35 U.S.C. 102(e) as being anticipated by Lee (US 5,846,859).

Lee discloses providing a first conductive layer 18 (col. 3, lines 24-27) and preventing oxygen migrating to the layer by layer 28 (col. 3, lines 25-27 and abstract).

Claims 54-56 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamyama (US 5,438,012).

Kamyama disclose the steps of forming a conductive polysilicon layer, nitriding the layer to prevent oxygen diffusion(col. 4, lines 107), forming a dielectric layer on the conductive polysilicon layer(col. 4, lines 8-13), and forming a second conductive layer on the dielectric layer(col. 4, lines 21-27).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caridad M. Everhart whose telephone number is 703-
